

Last Call

Buddy Guy

Last call
Last call for me and you
Last call
Last call for me and you
I'm gonna finish up this whiskey
And be done with both of you

Called me a taxi
Take me far as it can go
Called me a taxi
Take me as far as it can go
Gonna go so far away
This broken heart will never know

Last call
Last call for me and you
Last call
Last call for me and you
I'm gonna finish up this whiskey
And be done with both of you

That first kiss
Wish I knew then like I know now
Hey I said that first kiss
I wish I knew then what I know now
I would'a hit that highway runnin'
Never turn myself back around

Put up the chairs
And turn out the lights
This party's over
So say goodnight
You got more issues woman
Than one man can take
Your love is like a hangover
Makes my poor head ache

Last call
Last call for me and you
I said last call
Last call for me and you
I'm gonna finish up this whiskey
And be done with both of you
I'm gonna finish up my whiskey
Be damn sure I'm through with you
