

Love On A Budget

Buddy Guy

Baby, make me understand
Every time I come over to your house
I feel like you got another man
I'm standing on the outside
Trying to get in
I got something to tell you
I need you to listen

You always let me in
When I knocked on your door
Give me plenty lovin'
Now there ain't no more

Love on a budget
Baby, what are you savin' for
I can live without the rest
If you'd love me a little bit more

I'll cut back on whiskey
Tequila and cigars
But please, don't make me suffer
Don't be chintzy with your charms

Love on a budget
Baby, what are you savin' for
I can live without the rest
If you'd love me a little bit more

Save up all my pennies
Stretch a dollar mighty far
But I can't keep my hands
Out of your cookie jar

Love on a budget
Baby, what are you savin' for
I can live without the rest
If you'd love me a little bit more

I can live without the rest
If you just love me a little bit more
