

## Old Fashioned

Buddy Guy

I like cooking on a wood stove  
People I like it well done  
Yes, I like cooking on a wood stove  
Let me tell ya I like it well done

You can call me old fashioned  
But I still know how to have my fun

Leave my doors open  
Breathing that country air

Yes, I can leave my doors open  
Breathing that country air  
It's good for ya!

You can call me old fashioned  
But I really don't care  
I was born like that  
And I wouldn't take it back

Every day you live  
I've been living three  
Yes I say every day you live  
I've been living three

A stove ain't no good  
If it don't give off no heat

They call me old fashioned  
That's just who I am  
Yes they call me old fashioned  
Because that's just who I am  
I'm dressed like an old pop  
But when gas was 50 cents

I wish it was like that now
