

# Outskirts of Town

Buddy Guy

Yeah yeah  
I'm gonna move baby  
Listen  
Way out on the outskirts of town  
I said I'm gonna move baby  
Way out on the outskirts of town  
Yes  
You see we won't need nobody baby  
you know always hangin' round

Oh baby  
Yeah  
Yeah

It may seem funny honey  
Just as funny as funny can be  
But now if you have six children woman  
You know i got to have them all all just looking like me  
Gonna move baby  
Listen  
Way out on the outskirts of town  
You see we won't need nobody baby  
Always hangin' round  
Yeah

I got a little girl  
You know what  
She put me on that wonder  
And I wonder what's wrong with me

He, hehe  
I got a little girl  
My little girl  
You know she put me on a wonder  
And she misuses me  
You know she's alright with me I know  
Because this little girl she suits me to a tee

I never want for nothing, no  
You know she brings me everything I need  
Yes  
You know I never want, I never want, no I never want for nothing, nothing  
I tell ya  
She brings me everything I need  
She's my satisfaction in the morning  
You know I love my baby  
Oh yes indeed

I'm gonna move baby  
Way out on the outskirts of town  
Yes baby  
I'm gonna move  
Way, way out on the outskirts of town  
Yes I Am

Oh you see we won't need nobody baby  
Yeah

Baby, oh a oh yeah
