

Somebody Up There

Buddy Guy

I've been shut out of many places
I've seen pure evil in many faces
Settled down [?] I'm a forty five
The only reason I did not die

Somebody up there, somebody up there
Somebody up there... must like me

Losing a girl made my dreams come true
I was just a boy but I knew what to do
She held me close and I held her tight
I've told myself walking home that night

Somebody up there, somebody up there
Somebody up there... must like me

I've told my tale all I can tell
I prayed to heaven when I felt like hell
I fight my demons like every day
But I believe that it will be okay

Somebody up there, somebody up there
Somebody up there... must like me
Somebody up there, somebody up there
Must like me
Somebody up there must be thinking about me
Somebody looking down on me
Somebody
