

# The World Needs Love

**Buddy Guy**

The world needs love  
Like never before  
I said the world needs love  
Like never before  
People are hurtin' and killin' people  
People they don't even, don't even know

The world needs love  
Like the forest needs the rain  
The world needs love  
Like the forest needs the rain  
And stop all this suffering and heartache  
Heartache, heartache and pain

Talking about that old fashioned love

The world needs love  
Like you never seen  
Yes I said the world needs love  
Like you never, like you never seen  
How the hell can some people  
Be so damn mean  
Somebody need to tell me
