

# When The Time Is Right

Buddy Guy

You've already drawn your boundary  
Afraid to cross the line  
But one of these days  
When your heart stops crying  
You're gonna need somebody  
To help you make it through the night  
I'm gonna sneak up on you baby  
Oh when the time is right

You wanna play the feel  
Playing hard to get  
But even an illusive butterfly  
Winds up in the net  
You know it's true  
You know you can't deny it  
Oh I'm gonna sneak up on you baby  
Hey when the time is right

Won't you take the bait  
I'm gonna set the hook  
You might wiggle and shake  
But you know your goose is cooked

Could be tomorrow  
Might be tonight  
Sooner or later  
You know you're gonna bite

You're still afraid to make the big leap  
Worried about the water being too deep  
Trust your love  
Cause your heart will tell you so  
I know you will give up the fight  
Oh when the time is right

I'm gonna make you mine  
Oh when the time is right  
I'm gonna make you mine  
Hey when the time is right
