

Whiskey Ghost

Buddy Guy

Whiskey ghost
Keep on hiding me
Whiskey ghost
Just won't let me be
Killed him a long time ago
But he's still after me

Hold on that bottle
Laid it in a grave
Paid my last respect
And I walked away
But I still can feel him
In the dead of the night
He hate to see a good man
Trying to do right

Whiskey ghost
(Whiskey ghost)
Just keep on holding me
Killed him a long time ago
But he's still after me

He's out there tonight
In some low down dime
Waiting in the shadows
The same old lie
Might be Jack Black
Might be Jim Bean
Smiling in the corner [?]
[?] me

Whiskey ghost
(Whiskey ghost)
Keep on haunting me
Killed him a long time ago
But he's still won't let me be

In the middle of the night
I feel the chill
Reach down
Against my will
I smell the taste
And I start to scream
Scared the hell
Right out of me

Whiskey ghost
(Whiskey ghost)
Keep on haunting me
Killed him a long time ago
But he's still after me
He's still after me
(Whiskey ghost)
That old whiskey ghost
(Whiskey ghost)
(Whiskey ghost)
That whiskey ghost

(Whiskey ghost)
