

# Power Supply

**Budgie**

Don't wanna leave my electric house  
My lover got electric bills  
I won't die in an electric chair  
My power is everywhere

Power supply

I am an independent man  
A love generator is what I am  
And I give another million watts  
This power supply is hot

Power supply  
Power supply

A magnetic personality  
Soaking the duality  
My power supply will be  
My love for eternity

Power supply
