

Get Down

Budjerah

It's too late to get down
It's too late to get down
It's too late to get down
It's too late to get down
There's no way to leave now
Too high to reach out
Guess this is me now
Get down
It's too late to get down
It's too late to get down
It's too late to get down
It's too late to get down
There's no way to leave now
Too high to reach out
Guess this is me now

If there's a way
Please show me how
If there's a secret
Let it be found

(If there's a way) You could help me get down now
You could give me the know-how (Please show me how)
If it's gonna heat up
How we gonna keep on loving? (If there's a secret)
Would you care to be the one
Who's gonna hold me up? (Let it be found)
Would you care to be the one?

It's too late to get down
It's too late to get down
It's too late to get down
It's too late to get down
There's no way to leave now
Too high to reach out
Guess this is me now
