I wanna make you soar  
I wanna hit the feel  
Yeah, I'm gonna sing it live  
So you know it's real  
Create the kind of love  
To give the world a light  
Shine it till you can't ignore  
That you're feeling right

Take the road that will make you  
Proud of what you have done  
Take no second to delay  
Be proud of where you have gone  
If you fall that's your lesson learned  
Be proud of where you've come from
