

I can see what's happening  
Taking all my wishes  
I can see you runnin'  
I can feel it coming  
You think that I don't notice  
You think that you don't show it  
I can see you glowing  
Can you grow that seed you're sowing

Filling in the time I'm without you  
Lighting up my mind like a pyro  
If anybody asks in a day or two  
I'm with you, I found you  
Filling in the time I'm without you  
Lighting up my mind like a pyro  
If anybody asks in a day or two  
I'm with you

I won't change my mind  
'Cause I will be just fine  
It's the wrong place, but the right time  
I'll fly  
And I saw you coming back, coming back  
Will you take off the mask, take off the mask  
Show me how you used to act, used to act, used to act

Filling in the time I'm without you  
Lighting up my mind like a pyro  
If anybody asks in a day or two  
I'm with you, I found you  
Filling in the time I'm without you  
Lighting up my mind like a pyro  
If anybody asks in a day or two  
I'm with you, I found you
