

## This Is The Interlude

Budjerah

It's easy to listen in every condition  
I guess that's the mission to be your decision

Let me take a break  
Let me take some time  
Before I send you all to space  
When I spit these rhymes  
Sit back and relax  
I'ma take it real easy (Take it real easy)  
Sing it super smooth  
Then hit the high notes like I'm breathing (Oh)

Believe it, see it  
It's B on the track  
Now let me take it all back (Let me take it all back)  
Believe it, see it  
It's B on the track  
Now let me take it all back (Let me take it all back)

This is the interlude, yeah  
This is the interlude, yeah, yeah  
This the interlude, yeah  
This is the interlude, yeah, yeah, yeah
