

# Baby Don't Scold Me

Buffalo Springfield

Stills

Baby don't scold me  
You see I'm not old enough  
To recognise all the signs you might find - if you just told me  
!

From now on it would be wise to spill it when you, baby you, yo  
u've got eyes.

Bet you just like me - you dream of what might be  
But when it comes to the words  
They sound absurd taken lightly.

From now on it would be wise to spill it when you, baby you, yo  
u've got eyes.

When you see the sun  
You don't have to run  
Stand and watch it  
Not an extra moment will it last.

If you need me, you don't have to plead me  
Baby just let me feel something real  
And if you'll heed me

From now on it would be wise to spill it when you, baby you, yo  
u've got eyes.

When you see the sun  
You don't have to run  
Stand and watch it  
Not an extra moment will it last.

If you need me, you don't have to plead me  
Baby just let me feel something real  
And if you'll heed me

From now on it would be wise to spill it when you, baby you, yo  
u've got eyes.
