

## Down Down Down

Buffalo Springfield

Come to see her in the river  
She'll be there to wave to you  
In the hope that you'll forgive her  
She will join you there

Find out that now was the answer to answers that you gave later  
She did the things that we both did before now and who forgave  
her?

Now you see how down you've fallen  
Now you hear your conscience call  
Thank yourself alone for not stalling  
I'm not there to call

Call me a fool, 'cause I need her and see her but now you're de  
ad  
Something inside you will tell you  
I'm wise to what you're spreading round

If I could stand to see her cryin'  
I would tell her not to care  
When she learns of all your lyin'  
Will she join you there?

Find out that now was the answer to answers that you gave later
