

Hello, I've Returned

Buffalo Springfield

Hello, I've returned
I just learned you got burned by another guy
Come take my hand, let's sit here in the sand
While I say what I can, 'cause you made me blue
When I trusted you, you got someone new...
How can you do this to me?
I'm not made of steel, I can feel what is real!
Let's reveal who's the heel - it could be you

And you know, you and I, to each other we're tied -
At least me to you
Come on, see me through!
Why have me love you?
How can you do this to me?
I'm not made of steel, I can feel what is real!
Let's reveal who's the heel - it could be you
