

# Lost Downtown

Buffalo Tom

Won't you go away  
Won't you go away with me  
An hour or a day  
My head is resting on your knees  
Won't you go away  
I promise I will stay with you  
All night, all night

Winter weekend night  
Small time snow and velvet sleet  
Not a soul in sight  
I need someone outside of me

Let's get lost downtown  
Gotta have some souls around to save  
Right now, right now  
Right now

Let's get lost downtown  
Gotta have some souls around to save  
Right now, right now  
Right now

Won't you go away  
Won't you go away with me  
An hour or a day  
My head is resting on your knees

Let's get lost downtown  
Gotta have some souls around to save  
Right now, right now  
Right now, right now

Won't you go away with me  
Right now
