

The Kids Just Sleep

Buffalo Tom

I never thought that life would - carry on this way
Growing up outside of - Baltimore/DC

But as the sun goes down
I put my kids to sleep
I wonder if they hear their
Father start to weep

The kids just sleep
The kids just sleep
Kids just sleep
The kids just sleep

As the sun comes burning
Through the trees
All the leaves are brown and
Falling down on me

As the sun goes down
I put my kids to sleep
And I wonder if they hear their father start to weep

The kids just sleep
The kids just sleep
The kids just sleep
Kids just sleep

I never thought that life would be this way
In a vampire house in the USA
I never thought that life could be so cold
In a vampire house, living all a lone they - sleep

The Kids just sleep
The Kids just sleep
The Kids just sleep

I'd like to put myself to sleep
I'd like to put my head down to sleep...
