

You'll Never Catch Him

Buffalo Tom

You'll never catch him
I said, you'll never catch him
She said, that's what everyone says to me

You'll never catch him
She said, you know you'll never catch him
You'll run for miles but still you wont believe

God moves everywhere
Cross your heart and swear
Make it easy to do

I ran to catch him
You know I almost caught him
He wiped out once as he stumbled near the sea

I went to face him
You know I almost heard him
I had so many questions
But he had to leave

God moves everywhere
Cross your heart and swear
Make it easy to do
Find him inside me
Take a look and see
Make it easy to do

You'll run for miles but you still wont see
You'll never catch him if you don't believe
Don't believe
Don't believe...
