

Can I

Bugoy Drilon

You got me laying here
Under the light
The warmth of yellow lamp
And lullabies
I got these mem'ries
Hidden on the side
Under rags and pretty candle fires
Back when we were
So much young and wreckless
Lost in time and space
Baby you're mine
Back when we could only just be careless
We don't give a damn
Baby you're mine

Can we find the love
To get it back
And make it right this time
Baby can we turn back
The hands of time
And make it through the night
Can I stay close by your side
And love you for all time
Oh baby can I
Baby can I
Can I love you this time
Can I love you this time
Can I love you this time

You got me running
From the place I know
Take me away
Leaves come falling back to you
Poured my blood in to
All the things we do
Can you? Can you... oooh

Back when we were
So much young and wreckless
Lost in time and space
Baby you're mine
Back when we could only just be careless
We don't give a damn
Baby you're mine

Can we find the love
To get it back
And make it right this time
Baby can we turn back
The hands of time
And make it through the night
Can I stay close by your side
And love you for all time
Oh baby can I
Baby can I
Can I love you this time

Can I love you this time
Can I love you this time
Can I love you this time

Can I wait for your love
Til we turn up the flame
Can we get to the good part
Where we go insane
Hiding away
Away from the rain
Can we make up and start over
Can we forget
And take over
Tell me baby can I

Can we find the love
To get it back
And make it right this time
Baby can we turn back
The hands of time
And make it through the night
Can I stay close by your side
And love you for all time
Oh baby can I
Baby can I
Can I love you this time

Can I love you this time
Can I love you this time
Can I love you this time
Can I love you this time
Can I
