

## B. Inspired

Bugzy Malone

We'll just keep vibzing on this one  
Yeah, okay  
Be Inspired  
Be Inspired  
Be Inspired

Something tells me that they need me to live for this  
Gonna need me to live for this  
They're gonna need me to live for this otherwise I'm a hypocrite  
All that I ask is you be inspired  
Be Inspired  
Be Inspired  
Everybody gets tired

This is a story of sheer commitment  
The definition of wisdom a young king trying to build a kingdom  
Can't tell a trait with criticism  
When I talk like this it's hypnotism  
Forget this roadman ting I've seen a prison  
From the inside out and yeah I was burnt but like a phoenix I've risen  
It's mad how I'm not even the Lamborghini but I'm feeling driven  
I've been in the darkest places please believe me you can beat depression  
I've seen broken people give up hope and then chase the dragon  
Abused people with children, normally pass the baton  
Like it's a relay race I wanna see him now so I can see his face  
I need him to know that I can re-inflate  
I was a leader then so let me reinstate  
And I'm about to buy a house with an electric gate  
And I got the Huracan sat in black with a private plate  
I was brought up in a house with no carpets  
Birthdays with no parties, car games on the Atari  
Motown and Bob Marley  
Sad times and heartache  
I would run away and I'd would tell myself I would get rich one day  
So right now I'm gonna need to live for this  
Gonna need to live for this  
And they need to live for this, otherwise I'm a hypocrite  
All I ask is they let me inspire, let me inspire  
Let me inspire and I'll never get tired  
Yeah

To everybody listening to this, inspired by me  
Let me explain right now  
Anything is possible, you have to see it and believe it  
Even when it seems impossible
