

# Blessed You

Bugzy Malone

After four hundred yards, take a right  
And then you have reached your destination (Yo, yo)

And I've been single for a while now  
I'm not been lookin', I've been in the kitchen cookin'  
I'm a man that don't need nothin' and I do not like to slow down  
But there's some things that I really like to see  
And there's some places that I really like to go  
Love in my heart and I've got nobody to show  
If Bonny didn't meet Clyde, would she be on the road?  
A partner in crime is the only thing I know  
I like to keep them on their toes  
I like designer on my clothes  
I keep it sharp, like the thorns around a rose  
This life that I chose took a toll on my soul  
I chose to be a real man  
I've chosen to put food on the table like a meal plan  
Created distance between me and my guys  
There's haters on the road, but they come in disguise  
Some of the pain that you can see in my eyes  
Is partially the reason that I'm young and I'm wise  
So let me deep in your mind, then let me handle your thighs  
Would you believe me if I told you I was one of a kind?  
There's some things in my life that I'd like to deny  
But I'm honest and I promise, I won't tell you a lie

The Lord has blessed you  
Beautiful and intellectual (You're a queen, baby girl, you're a queen)  
There is no ordinary man, ordinary man can get you (When I'm sleepin', I can  
see you in my dreams)  
The Lord has blessed you  
Beautiful and intellectual (You're a queen, baby girl, you're a queen)  
There is no ordinary man, ordinary man can get you (Every king needs a queen  
on his team)

Could we do Dubai row? (Maybe Bora Bora)  
Under the Eiffel (I'll bring a rose for you)  
I swear on the Bible  
You look like an angel to me (You look like an angel to me)

I'd like to travel the world private  
Louis V cases with the cabin crew and the pilot  
And if you really wanna sail the seas like a pirate  
To a beach or an island  
Have you feelin' alive, make you sleep for the night  
I'm speakin' to the universe, I guess that makes it spiritual  
I see you in my mind, but just can't see you in the physical  
And when I see you, I will steal your heart like I'm still criminal  
I'm at the top, but still don't feel like I'm up my pinnacle  
I'm tryna connect with your mind, body, and soul  
Would you leave if I'm in debt?  
Would you pull from a hole?  
See, I've walked a thousand miles in the cold on my own  
I would love to know if you would like to roll  
They like your pictures 'cause you're pretty, it's a given  
You're gettin' followers, but still, there's something missin'  
There's always mystery in the captions that you've written

But every lioness started off a kitten  
I swear, that I can't wait to talk even though we haven't met yet  
There's an open door, you can walk in and break bread  
By the time we link up, I'll be ready to connect  
But you just keep on livin' till we meet in the flesh

The Lord has blessed you  
Beautiful and intellectual (You're a queen, baby girl, you're a queen)  
There is no ordinary man, ordinary man can get you (When I'm sleepin', I can  
see you in my dreams)  
The Lord has blessed you  
Beautiful and intellectual (You're a queen, baby girl, you're a queen)  
There is no ordinary man, ordinary man can get you (Every king needs a queen  
on his team)
