

# Come Through

Bugzy Malone

I'm looking at one million pound houses now and I'm three years into the game  
I was living in someones spare bedroom and it was five years ago to the day  
I had a restraining order from Bury New Road and a thousand pounds to my name  
I've not long got back from the King of the North tour and I just soldout all 10 days

I think set MCs are on drugs  
I think set MCs are loved up  
They're nervous cos I didn't jump on the bandwagon  
I driven away with the truck

I driven away with the truck  
I said I driven away with the truck  
I'm bringin in so many new tracksuits  
That you woulda thought I was importing drugs

If I get a one million pound house  
I don't wanna hear nobodies big mouth  
Cos that'll make me one of the most successful grime MCs  
And I'm not from the south

Man don't talk, I'm the King of the North  
I infiltrated me and my troops  
Holding a sword that had never been used  
And it looked like I dipped it in cranberry juice

It looked like I covered my face in tomato ketchup  
By the time that I was through  
And that's cos everybody other than women & kids got...  
...aghh, say no more!

Pu-pu-put it this way: we don't have olders no more that's old news  
Put it this way: I seen way more boxes than I seen new shoes  
Put it this way: when it goes off there's no one you can run to  
Put it this way: you're gonna hear pah-pah-pah-pah when I come through

Come through  
Pah-pah-pah when I come through  
Come through  
Pah-pah-pah when I come through  
Come through  
Pah-pah-pah when I come through  
Pah-pah when I come through  
Pah-pah-pah...

Watch when the album drops  
None of these MCs are ready for the boss  
If I take a loss, he takes a loss  
At the end of the day, my whips drop top

At the end of the day forget Tokyo Drift  
Cos I'm letting off like Lewis Hamilton does  
I can make it go sideways kicking up dust  
Me I'm on some Gran Turismo stuff

I was drifting round a corner  
Me I just put 'em in danger  
You shoulda seen when I pulled up on him like:  
"Everybody get down, nobody gets hurt"

It says one-six-five on the dash  
Even the sat-nav thinks that we're gonna crash  
You shoulda seen the footwork  
I was like, pah-pah-pah-pah, I'm not gonna let em past

They know I'm on job, I like to stand my ground  
Man know that I've never been shook  
If I get overtook  
Then I down-gear and light up the road like a street light does

Oh my god - this ones better than the final scene in Scarface when he got shot  
Just as I was gonna give him his props  
Them days I was still a foot soldier but I wanted to be a captain like Spock  
This ones a straight up banger, like when man put snooker balls into a sock

Pu-pu-put it this way: we don't have olders no more that's old news  
Put it this way: I seen way more boxes than I seen new shoes  
Put it this way: when it goes off there's no one you can run to  
Put it this way: you're gonna hear pah-pah-pah-pah when I come through

Come through  
Pah-pah-pah when I come through  
Come through  
Pah-pah-pah when I come through  
Come through  
Pah-pah-pah when I come through  
Pah-pah when I come through  
Pah-pah-pah...

One seat in the whip like F1  
And a matte black helmet: teflon  
A 3D display in the visor, one of a kind  
You're never gonna get one

Spikes in the wheels to stop man powersliding  
And the accelerations paralyzing  
Does 0 to 60 in 2 point 8  
Nobody can compete with lightning

The north pole can get blinding  
And we keep on twisting and winding  
I looked into the rear view, couldn't find him  
I looked into the rear view, couldn't find him

Wait... here we go  
Cos I know set man are trying to steal my flow  
Got sick of man replicating videos  
So I shot on a frozen lake with a drone

You've never put anybody in the boot  
You'd get smacked up if you tried to  
You think I can't see you're a soft youth  
Set man look purple like a beetroot

This is the 01 to the 61  
Overtaking man like it's formula one  
So many buttons on the steering wheel

That it looks like a pad from a PS1

Dual shock  
Like Greek gods  
Thunder will come down  
If they try fucking with the home town  
I'll make a man spin round

Dual shock  
I'm like Jack Frost  
Cos when I turn icy  
Believe there's nobody like me  
I'll send man to the almighty

Pu-pu-put it this way - we don't have olders no more that's old news  
Put it this way - I seen way more boxes than I seen new shoes  
Put it this way - when it goes off there's no one you can run to  
Put it this way - you're gonna hear pah-pah-pah-pah when I come through

Come through  
Pah-pah-pah when I come through  
Come through  
Pah-pah-pah when I come through  
Come through  
Pah-pah-pah when I come through  
Pah-pah when I come through  
Pah-pah-pah...

Pah-pah when I come through...  
Pah-pah when I come through...  
Pah-pah when I come through...  
Pah-pah when I come through...
