

Get Gassed

Bugzy Malone

Bugzy Malone

You know

Hold tight Zdot on the production

Watch this

I could do to the top what I've done to the bottom, everybody's in danger

I got dissed off a pop star, and I went sick, turned into the black Power Ranger

I done numbers on iTunes that had people thinking I was signed to a major

Any minute now I'm gonna need 100,000 volts in a bank like a taser

You're looking at the grime scene re-arranger

You're looking at the wasteman relegator

I got sent for, then I sent back

And they should have called mine a career devastator

I know there's a lot of hype in the grime scene right now and you're looking at the creator

That's because I produce so much methane gas that man call me the gas chamber

I make people hashtag #RIP and I seen the grime scene wake up

Couple man took shots but I say nizzy, cause they're clowns with no make up

Them man are playing 5-a side, I'm in the Champions league, no FA Cup

And I'm like Bane the way I popped up and pulled Batman's cape off

You're looking at a villain, villain

Man come round I'll spin 'em, spin 'em

DJ pull up the riddem, riddem

On a 0161, Manny on the map ting, man don't play

Villain, villain

Man come round I'll spin 'em, spin 'em

DJ pull up the riddem, riddem

On a 0161, Manny on the map ting, man don't play

I'ma do to the top what I've done to the bottom

Way bigger than Kim Kardashian's bottom

Somebody please get on the phone to Dot Rotten

Cause the beat on my JDZ will never be forgotten

I got a million views and I also got some brilliant views

It was like a plane went into the twin towers again when I done my Fire in the Booth

I set fire to the building, fire to the room

Fire to my new blue jeans, fire to my shoes

My man done a Tutankhamen

Cause he got wrapped up and left lying in a tomb

Now I got people on the street thinking "Is that Bugzy Malone from YouTube?"

See when I say "0161, Manny on the map", everybody get's gassed in school

If you're in school, stressed out, get gassed

If you're on the road, blacked out, get gassed

If you hear this when you're out and you're wavy

Then you better jump up and get gassed

Cause I, I, get gassed

I make the DJ pull that back

Gun fingers in the air, brap brap!

0161, Manny on the map

You're looking at a villain, villain
