Bugzy Malone

Yo  
(Swifta production)  
Yeah  
Man know the season  
Yo, watch this

So man wanna reach the heights that I've reached  
They wanna drive the cars that I've driven  
The clothes I get given, there's way too many  
And my new walk-in wardrobe can't fit 'em  
They wanna do the things that I've done  
They wanna do it the way that I did it  
I'm the originator, never been a mimic  
And a Honda Accord could never be a Civic  
I used to play Tony Hawk's  
But them days are done, I'm not ramping with him  
And man are still tryna make diss tracks  
But there'll never be another "Relegation Riddim"  
I get straight to the point  
So the agenda's not hidden  
You can go and tell the king that I'm coming  
This isn't the Game of Thrones, if it was  
Then the 01 to the 61's got a dragon  
Forget about Winnie the Pooh or Aladdin  
It's not a Disney story I'm chatting  
None of these MCs can fuck with me  
Cuh they do more talking than they do rapping  
I don't know why you talk about trapping  
Them man are soft like butter, I'm stabbing  
You can straight bar for bar all you want  
But man know bar for bar that I'm savage  
Man know bar for bar, I do damage  
I'll leave an MC's headtop cabbage  
Leave enemies in the past just like jungle and garage  
Now she wants to get married  
Cause she's seen me in gloves and a bally  
Heard I'm an MC and I get paid good wages  
To make the crowd go manic  
I used to make change in the snow  
I would have 50 pots in one grow  
Now I get paid in shorts and a T-shirt  
Cause I've got shows all over the globe  
I hope this one's not a fix or a hoax  
Got nominated for best video  
Nobody's done what I've done this year  
This time listen to the people's vote  
Anyway, no big ting  
I've got a new tracksuit, no big ting  
In JD soon, no big ting  
Some all-black split man's wig ting  
Some matte black hitman sick ting  
The kind of tracksuit man use to make a man go missing  
This is supply and demand part two  
Cuh the old T-shirt sold on a quick ting  
Yo, the green light means go  
But the red light means don't phone my phone  
Speaking of red lights, I was in Amsterdam

So high you would have thought I smoked  
One space cake had my legs like jelly  
I'm usually light on my feet like Pele  
I couldn't stop giggling  
I was walking round the district higher than Kevin and Perry  
It's mad, never thought I would see a penny  
Then I just spent way too much on a three-part music video  
Just so I could make the club scene entrance look like Belly  
Them man are slow like Tom and I'm Jerry  
Them man are Ron Weasley and I'm Harry  
How are they gassed cause of Brotherhood?  
They're only there cause I was way too busy  
I don't know what happened with Adam Deacon  
But you can't get me in a sequel for pennies  
Not when Section 8 has got set directors  
Looking like they're not ready  
I've been in the top ten twice  
And certain MCs can't even get a top twenty  
People lie, numbers don't  
I can't but right now, I've got too many  
Look, none of these niggas scare me  
They act like they cannot hear me  
Do you believe your girlfriend's with you  
Cause you're a peng ting? You don't really  
You and I both know that he's weird, G  
Now I know why these niggas fear me  
If I was you, I wouldn't let your girlfriend  
Come anywhere near me  
It's mad, cuh dem man know I'm coming up fast  
Kick that door off, take that cash  
It was groggy season  
And man kept sending for the invisible man  
Brand new tracksuit, all in black  
Man don't wanna see me going on rags  
Everybody knows that I, I

Turn into the devil when I get mad (mad)  
Turn into the devil when I get mad (mad)  
Turn into the devil when I get mad (mad)  
Turn into the devil when I get mad (mad)  
Turn into the devil when I get mad

There's levels to this shit, I know mine  
She's not a ten, she's a low five  
She's a minor, I'm a gold mine  
I sent her back to the roadside  
I can't embarrass anybody  
That's embarrassing themselves  
2000 likes on Instagram  
Doesn't mean that your name is ringing bells  
You're a has-been and everybody can tell  
If you're a snake, you and I won't gel  
Copying me was never gonna help  
You're just an imposter  
He got an A in his GCSEs  
And he's still not clever like me  
Went to uni and then got a degree  
But he's still not clever like me  
See, back in 2013  
I went to the Jobcentre to jobseek  
Now I can stay in bed until two o'clock  
And make ten grand on a bad week  
I am the lone soldier of this scene

And nobody's fucking with me  
I am the wolf and them man are sheep  
And nobody's fucking with me  
They want me out the game as we speak  
But nobody's fucking with me  
And if you don't know and you wanna know why  
It's cause I've got Manchester behind me, watch this  
Look, man tried fucking with the King of the North  
And got stopped at the door  
That's cause I had archers shooting down from the fort  
They ran off the mission screaming "abort", ah

Must be the reasons why I'm king of my castle  
Must be the reasons why I'm free in my tracksuit  
Must be the reasons why I'm king of my castle  
Must be the reasons why I'm making examples of you

Mad, turn into the devil when I get mad  
Mad, turn into the devil when I get mad  
Mad, turn into the devil when I get mad  
Mad, turn into the devil when I get mad

Must be the reasons why I'm king of my castle  
Must be the reasons why I'm free in my tracksuit  
Must be the reasons why I'm king of my castle  
Must be the reasons why I'm making examples of you  
Of you  
Of you
