

# Nightmares

Bugzy Malone

"Anywhere can feel like a prison when you don't have any faith  
The only thing that got me through the endless night... was the plan. Stay focused! Stay sane!

[Guy:] Hello?  
[Girl:] I hope you're proud of your self  
[Guy:] 'ya talkin' about?  
[Girl:] My best friend... really?  
[Guy:] Whateva'  
[Girl:] "Whateva...? What ever... you f...

All I seem to do is fuss and fight  
'Cause all I ever do is speak my mind  
And this is just another lonely morning  
But I don't wanna be alone tonight  
'Cause I've been having those  
Nightmares, nightmares, nightmares, nightmares  
This is just another hopeless story  
Because I never leave the past behind

Look... I've lost control of my emotions  
But I'm still livin' I'm just goin' through the motions  
Psychologically, I've got issues  
Don't know how to approach 'em  
Plus I'm affiliated by association  
This sinister reality is gruesome  
I wish I could take it back a bit  
And think of a solution  
I've never felt more like Frank Ocean  
Cause I've been thinking 'bout forever, sulkin'  
My mother's mid-life crisis got me thinking  
Where is the sense in over doing it with drinking  
Living like we haven't got a prayer  
Constantly we're thinking  
I close my eyes because I can't be bothered blinking  
I feel to drop into a sleep so deep  
That I could escape from everybody that knows me, phones me  
Life in Meanwhile City is lonely  
But I know it's my one and only

All I seem to do is fuss and fight  
'Cause all I ever do is speak my mind  
And this is just another lonely morning  
But I don't wanna be alone tonight  
'Cause I've been having those  
Nightmares, nightmares, nightmares, nightmares  
This is just another hopeless story  
Because I never leave the past behind

Look, you won't believe it if I told ya  
You think I'm perfect cause' I've got bits of exposure  
Plus I'm keeping my composure  
It doesn't matter  
In the grass there lies a cobra  
Ready to strike at all times  
So I keep dodging the bullet like a soldier  
Yeah I'm Boris the blade call me the Bullet Dodger

But I still can't see my future  
I just hear the words of that same old teacher  
That told me that I gotta be my own believer  
If I wanna succeed or be any type of a leader  
Martin Luther had a dream  
That's a pretty thing  
And that's a real king  
But the line between a nightmare is pretty thin  
All my dreams start bright  
But that's the thing when you're living a hard life  
I fall asleep drift onto the dark side  
And wake up sweating in the middle of the night

All I seem to do is fuss and fight  
'Cause all I ever do is speak my mind  
And this is just another lonely morning  
But I don't wanna be alone tonight  
'Cause I've been having those  
Nightmares, nightmares, nightmares, nightmares  
This is just another hopeless story  
Because I never leave the past behind

All I seem to do is fuss and fight  
'Cause all I ever do is speak my mind  
And this is just another lonely morning, lonely morning, lonely morning  
And I've been those nightmares, nightmares, nightmares, nightmares  
And this is just another hopeless story, hopeless story, hopeless story

All I seem to do is fuss and fight  
'Cause all I ever do is speak my mind  
And this is just another lonely morning  
But I don't wanna be alone tonight  
'Cause I've been having those  
Nightmares, nightmares
