

Warning

Bugzy Malone

(Yo, Danger)

Warning - Get Back

You don't really wanna see man get mad

Pineapple Ciroc to the head back

Make man go sleep like jet lag

I said, Warning - Get Back

You don't really wanna see man get mad

Pineapple Ciroc to the head back

Make man go sleep like jet lag

Give you the full clip that's rat-at-at-at

Give me the balaclava ski mask

Tell that little pussyhole relax

'Cause you don't wanna get caught like sea bass

Blacked out gilet to the combats

Sparks are gonna fly when I see gas

Bar for the pound, bar for the wheel-ups

Man-a get turned up like contrast

Bring out the white and blue tape

I'm on the dancefloor cutting up a new shape

Set man are on a [?] brown tape

Set man are looking like [?]

Man are going on dark with a heater

Man-a get burnt like creme brulee

This one's a warning

You don't wanna be about too late

I've been going all gangster lately

Gangster, gangster lately

Gangster lately, gangster, gangster lately

Are you forgetting that gangsters raised me

Gangsters, gangsters raised me

Gangsters raised me, gangsters, gangsters raised me

Warning - Get Back

You don't really wanna see man get mad

Pineapple Ciroc to the head back

Make man go sleep like jet lag

I said, Warning - Get Back

You don't really wanna see man get mad

Pineapple Ciroc to the head back

Man are going on gangster lately

Body season that's an understatement

Man was brought up on the pavement

Talk to the police that's godforsaken

Z-Dot ting so it's over-wavy

Man like beef with loads of gravy

You wanna see the promoter pay me

100 bags - that will make you lazy

(Man are going on) sick

Right now it's body season

That means that I'll split a man's wig

(Man are going on) cold

Hold tight all of the soldiers that are in militant mode

(Man are going on) different
What's coming out of your speakers, a banger like [?]
(Man are going on) nuts
Throwing out uppercuts, headbutts leaving bruises and cuts

I've been going all gangster lately
Gangster, gangster lately
Gangster lately, gangster, gangster lately
Are you forgetting that gangsters raised me
Gangsters, gangsters raised me
Gangsters raised me, gangsters, gangsters raised me
