

Constant

Building 429

I can't live without You
I can't live without You
I can't live...

The light is gone the darkness has covered me
The moon is hidden and my eyes don't see
Still I follow, still I follow
Beautiful is love revealed to me
Through the depths of my desparity
Even when I'm shattering I know that
You've got me, yeah You've got me

When everything else is changing, You are constant
Lifting my eyes to see far beyond this misery

I am consumed with You
I can't live without You, breathe without You
I must confess to You that
I can't live without You, breathe without Your love

Perfectly ordained and formed with love
My heart has been designed for Your touch
So I will follow, I will follow
Stunning is Your glory revealing
The hope that lives deep inside of me
And I know that You have captured me
You've got me, yeah You've got me

When everything else is changing, You are constant
Lifting my eyes to see far beyond this misery

I am consumed with You
I can't live without You, breathe without You
I must confess to You that
I can't live without You, breathe without Your love
