

Eyes Up

Building 429

Everyday is an uphill climb
We're pushing harder just to fall behind
But we know the best is up ahead
Weary soul just rest your mind
You're gonna see it's just a matter of time
Cause we got a God that's bigger yet

And the world is still in His hands
Even when we don't, even when we don't understand

You gotta keep your eyes up
Come on keep your eyes up
You and I will be alright, be alright
God is always on our side, on our side
Head up, don't you ever let up
All your broken and all your mess
Lay it in the hands of His faithfulness

Eyes up
Yeah, we're gonna rise up
Rise up
Come on keep your eyes up, eyes up

Every mountain seems so high
You're gonna see it from the other side
How big a God we really have
His love is deeper than the ocean, ocean wide
Maker of the stars that fill the skies
How big a God we really have

You gotta keep your eyes up
Come on keep your eyes up
You and I will be alright, be alright
God is always on our side, on our side
Head up, don't you ever let up
All your broken and all your mess
Lay it in the hands of His faithfulness

Eyes up
Yeah, we're gonna rise up
Rise up
Come on keep your eyes up, eyes up

Hey now, hey now
We're never gonna fly
If we never find the faith to try
Hey now, hey now
Gonna find wings
The Lord's gonna be our strength
Hey now, hey now
We're never gonna fly
If we never find the faith to try
Hey now, hey now
Gonna find wings
The Lord's gonna be our strength

You gotta keep your...

You gotta keep your...

Gotta gotta gotta gotta gotta gotta gotta keep your...

Eyes up

Come on keep your eyes up

You and I will be alright, be alright

God is always on our side, on our side

Head up, don't you ever let up

All your broken and all your mess

Lay it in the hands of His faithfulness

Eyes up

Yeah, we're gonna rise up

Rise up

Come on keep your eyes up, eyes up
