

## Hold Them Close

Building 429

I know I shouldn't want  
Any more than what I've got  
When I think about what's missing  
Seems like a lot  
But then I looked into their eyes  
And see my children smile  
I realize what I've been given  
I have more than I have not

Where I am today  
Didn't happen by mistake  
You're brought me here  
Where I'm supposed to be  
Time will sleep away  
But God don't let me waste  
A second of today  
Not a second, one second

I'm gonna hold them close  
Every memory, every little bit  
And I won't let go  
Everything I need is right in front of me  
You've given me what matters the most  
So let me hold them close

I feel the grace of God  
When my wife is by my side  
A treasure I could never earn  
No matter how hard I try  
I take a look at the past  
That brought us where we are  
All I see is your faithfulness  
That's carried us this far

Time will sleep away  
I'm so thankful for today  
So God don't let me waste  
One second, not a second

I'm gonna hold them close  
Every memory, every little bit  
And I won't let go  
Everything I need is right in front of me  
You've given me what matters the most  
So let me hold them close

So let me hold them close

Everything that you have done  
Everything you're given us  
Every good from you  
Gonna hold them close

Everything that you have done  
Everything you're given us  
Every gift from you  
Gonna hold them close

I'm gonna hold them close  
Every memory, every little bit  
And I won't let go  
Everything I need is right in front of me  
You've given me what matters the most  
So let me hold them close  
Let me hold them close
