

Infinite Glory

Building 429

Gloria...
In excelsis deo

On a cold night so long ago
Heaven's breath held tight
Angel choirs and anthem songs
Awaited a child's first cry
Creation shouted at the sound
Of a baby boy's name
All of humanity stand and sing
Amazed at the mystery
And the song remains the same

Over and over and over again
I find Your greatness is far greater than
My eyes can see or my voice can speak
You are the God of infinite glory
How can it be that part of your plan
That Your Son, and our King, became man
In a stable in a Bethlehem

This year as we gather round
We worship you the same
All of humanity stand and sing
Amazed at the mystery
When we speak Jesus's name

Over and over and over again
I find Your greatness is far greater than
My eyes can see or my voice can speak
You are the God of infinite glory
You formed the oceans with a wave of your hand
And outshine the stars You're still far greater than
My eyes can see or my voice can speak
You are the God of infinite glory

Gloria
Gloria
In the highest
Gloria
Gloria
To our King
Gloria
Gloria
In the highest
Gloria
Gloria
To our King
Emmanuel
God with us
The spotless lamb
Who takes our sins away

Over and over and over again
I find Your greatness is far greater than
My eyes an see or my voice can speak
You are the God of infinite glory

You formed the oceans with a wave of your hand
And outshine the stars You're still far greater than
My eyes can see or I could ever believe
You are the God of infinite glory
How can it be part of your plan
That Your son, and our King, became man
In a stable in Bethlehem
