

## Ocean Deep

Building 429

Would You look at me  
Here in my frailty  
Yeah, I've been living a lie  
Believing that I could earn this

Would You look at us  
We say we know Your love  
And still we think if we fail  
Somehow You won't be enough

But Your mercy is an ocean deep  
Your grace is washing over me  
Your love is like a wildfire chasing after me  
It's more than I deserve  
Before I've said a word  
You know all of my fears  
Every tear I will ever cry

And You keep reaching out  
Far beyond my doubt  
When I see all that You've done,  
I'm overcome, I am swept away

'Cause Your mercy is an ocean deep  
Your grace is washing over me  
Your love is like a wildfire chasing after me  
It's all, it's all that I can do  
I surrender all I am to You  
It's all, it's all that I can do  
'Cause Your mercy is an ocean deep  
Your grace is washing over me  
Your love is like a wildfire chasing after me

Your mercy is an ocean deep  
Your grace is washing over me  
Your love is like a wildfire chasing after me [x2]
