

## Elements

**Built to Spill**

Swimming down the river white  
Into the ocean blue  
And in a cave beneath the ocean floor  
You find another you

You feel the ground beneath your feet  
Makes you feel so strong  
But when the earth  
Begins to quake  
You know there's something wrong

You feel the breeze at your back  
It makes you feel so bold  
But when the wind forgets your name  
The world can be so cold

Up in the stars  
Up in the sky  
Another world abounds  
And I don't know just what it means  
But I like the way it sounds

Ah-ah  
Ah-ah  
Ah-ah  
Ah-ah
