When Not Being Stupid Is Not Enough

Built to Spill

When not being stupid
Is not enough
When not being wrong
Is not enough
Waited such a long time
Have I waited too long?
In a world that's so bad
It's not hard to feel good
You do what you have to
Not as much as you could

Just because you're not wrong
Doesn't mean that you're right
When not being stupid
Is not enough
When not being evil
Is not enough
You look all around you
Never look up at the stars
