

# AGELESS TIME

Buju Banton

And it make you think about all this darkness around us  
And you aks  
Right now for clarity  
Shine your light

Freedom's being forfeited and movements dormant  
You question existence from your mind, four corners  
You would if you could, or you might turn this darkness into light  
Grandstanding, outstanding, the promo, the branding back-  
masking  
Hiding what you really wanna say  
The pain and the anguish, the soul that's now tarnished, seek only light from source far way  
Ageless time, could you remind this simple child  
Of the way things were when all was all wrapped up in love?

Ageless time  
Please remind  
This simple child  
Of the way things was when everything was wrapped up in love

Financial depression  
Legal oppression  
Government overreach  
All cloak in black with a sinister plot  
They practice what they don't preach  
Workers underpaid, screw your minimum wages  
Everyone needs an increase  
They have destroyed life now what they seek

Oh, ageless time  
Kindly remind  
Me of the way things used to be  
Let the world see  
Don't ever let me worry  
Don't let me repeat, yeah  
Of the way things was  
When everything was all wrapped up in love  
Ageless time
