Yet we knew all along

That the only way forward is unification

That time is now at hand

Where nations and nations must acknowledge that creation

Oh, mighty people, sunburn face

Among all other nation, rise and take your place

Wat yuh talkin' bout?

Tomorrow may be too late

Yes, I know
Among us, there are traitors and spies
But no one can stop us if we're truly unified
I know, among us, there are wolves among the flocks
But no one can stop us and to conquer they cannot, 'cause

Unity
What am I calling?
Unity
For every black man
Unity
Unity
Hear what I bawl
Unity
Don't think that I'm crazy
Unity
Some say that I'm mad
Unity
Where can I find it?
Unity

Far too long we've been
Fighting each other, carrying bags on hands
Yet we knew all along
That the only way, the only, what am I, what am I talking?

Unity
What am I talking?
Unity
For every black man
Unity
We suffer so long, oh

At home and abroad
