

It's on God
It's on God
Whoa, whoa

Girl, as long as the Hennessy for my cup will never finish
Wetin I feel I go talk am finish
Say girl, if you give me one minute
I'll convince you I am that confident
Been waiting on you for couple minutes
No make oroma con they see me finish
Girl, if you won't give me one minute
Then I'll convince you I am that confident
I'll convince you I am that confident
I'll convince you I am that confident
I'll convince you I am that confident
No make oroma con they see me finish
I'll convince you I am that confident

Something on my mind
So I could tell you one time
That liquor and wine
Tell me if you like so baby, we will step outside
We can go ride outside in the night time
You know as e be, you know as e go
Make I give you up close and personal something wey go sweet you like wen I
sing I'm nothing
Girl, you know as e be, girl you know as e go
Make I give you up close and personal something wey go sweet you like wen I
sing I'm nothing

Excuse me please my sister

And I want to be your mister
I dey see your face on top my radar, I want make we jam jam
