

## Lay Low

BNXN

Baby, I don't want you to lay low  
Mama, ain't no need to be shy  
Ya sabes cuánto te quiero  
She send the location, you slide  
And I touch her body  
And I touch her body

She slide by and lay low  
She slide by and lay low  
She slide by and lay low  
She slide by and lay low

Shawty, we should be out in Turks and Caicos  
It's our time, I feel like we should lay low  
Bodies fuego, tell me what you said though?  
It's your song, I feel like we should play it though, oh  
Girl, open the spot, we pull up in the lot  
And you lookin' like fire, I'ma keep it a buck  
Hit it slow, do your work, can you give me top?  
It's all the feelings I got when you got down fast

She slide by and lay low  
She slide by and lay low  
She slide by and lay low  
She slide by and lay low

Sabes que solo eres tú  
Sabes que solo eres tú  
Sabes que solo eres tú  
Sabes que solo eres tú

She slide by and lay low  
She slide by and lay low  
She slide by and lay low  
She slide by and lay low
