

Maximum Damage

BNXN

Cause if they can't have it, you can't have it
So everyday and night I'm still out on the road causing maximum

Everything wey good for life mi wan have it
I no wan use my eyes take see rubbish
Man I stay hungry, man I stay famished
I pray the Lord ah save me from damage
I'm, causing maximum damage
When gbèdu drop I bet they must jam it
I'm from a place where nobody makes it out without people thinking it's magi
c
Cause if they can't have it you can't have it
You see that mentality is just tragic
So everyday and night 'm still out on the road, causing maximum damage

It's light camera action
Nowadays it's two types of canons
I can never get used to that phantom
Music or road I got used to the balance
Roof down on the dawn, I put my foot down through hattons
Top floor taking in the view with the madame
The gyal dem see a likkle VVs, they see me on TV then they turn Jimmy Fallon

Then I take em all straight to heaven
It's more chunes pon your head top
Pray for more life so it won't stop
How you hate but we still pop
We been outside and we can't stop

Everything wey good for life mi wan have it
I no wan use my eyes take see rubbish
Man I stay hungry, man I stay famished
I pray the Lord ah save me from damage
I'm, causing maximum damage
When gbèdu drop I bet they must jam it

I got this Bad B she angelic
Add her to the aesthetics
6 figure transactions rack through the pandemic

So why won't you think I do voodoo
She heard I sold a crack and a Buj now I'm here lit with Buju

I had to play my cards right Yu-gi-oh
These two hand tings is costing me a two tone
We came up sending songs through the Bluetooth
Until the Bluetooth turned into a blue phone

And then the blue phone took me to a new zone
And we got connections so you know we don't roam
Ice cream, I dey blow cones
My life's great but I want more

Everything wey good for life mi wan have it
I no wan use my eyes take see rubbish
Man I stay hungry, man I stay famished
I pray the Lord ah save me from damage
I'm, causing maximum damage
When gbèdu drop I bet they must jam it
