

Never Stopped

BNXN

See sunshine ah hit, get off the sheets
I say a little prayer and I burn a spliff
Because I still dey breathe, I'm on my feet
And I know tonnes of niggas still hoping I quit jigga
Ma shit legit, ko si elomi
Not where I want to be yet so I still dey push jigga
And I don't ever fail to bring the heat
And no nobody stopping this, so you can watch and see

I've never stopped in my life, so tell me why would I stop now
Much to achieve in my life, I hustle till the sun comes down
Can't throw dirt on my hustle, my spirit you can't bring it down
You know I've never stopped in my life, so tell me why you think that I'll s
top now

I've never stopped in my life, so tell me why would I stop now
Put as much to achieve in my life, I hustle till the sun comes down
You can't throw dirt on my hustle, my spirit you can't bring it down
You know I've never stopped in my life, so tell me why you think that I'll s
top now

Para para
Who say Buju no fit sing go tell the motherfucker
I drop 16 bars rounds your favorite rapper
I'm a singing nigga wey still sabi flow proper
Big giant, five fo fumb, smell dinner
You're looking at a mix of Burna Boy and 2Baba
With a sprinkle of Khalid and Frank Ocean sha
You get me sha
And you know say these people no dey my radar

See Ayanfe mi gan gan
Ofeshemi bioun nkan
And she tell me when I don't call
Tells me it's an insult
How you feeling tonight
You see the people jamming tonight
And when the music playing all night
Girl you know I'll be doing you right
Later on in the night, you know

I've never stopped in my life, so tell me why would I stop now
Much to achieve in my life, I hustle till the sun comes down
Can't throw dirt on my hustle, my spirit you can't bring it down
You know I've never stopped in my life, so tell me why you think that I'll s
top now

I've never stopped in my life, so tell me why would I stop now
Put as much to achieve in my life, I hustle till the sun comes down
You can't throw dirt on my hustle, my spirit you can't bring it down
You know I've never stopped in my life, so tell me why you think that I'll s
top now
