

Party Don't Stop

BNXN

Call the paramedic

No the party don't stop
We just do what we want
We wait till the sun come
And then everything's done
We just here to have fun
And the night is still young

No the party don't stop
We just do what we want
Oh and it feels like a movie
We were taking shots, and I took 3
We way too lit come and get me
And I beg you don't stop the music
Oh yeah it feels like a movie

We were taking shots, and I took 3
We way too lit come and get me
And I beg you don't stop the music
Been locked in for so long
And this is the right song
Without you it's no fun
Promise me that you'll come
Categorically speaking, you're my type you know
And I do not know the reason, I can't let you go

Ohh oh oh
Oh and it feels like a movie
We were taking shots, and I took 3
We way too lit come and get me
And I beg you don't stop the music
Oh yeah it feels like a movie
We were taking shots, and I took 3
We way too lit come and get me
And I beg you don't stop the music
