

# Coma

## Bullet For My Valentine

There's nothing inside  
Not dead or alive  
No feeling to find  
Like I've been hypnotized  
How do I see  
A lot in the dark  
When nothing is real  
And I don't hear a heart

I can't wake up from this cold dark state  
Of hopelessness, so numb to everything

It's under my skin  
Living within  
I'm chained to my mind  
So undignified  
Run from the tide  
That's rising so high  
Come wash me away  
'Cause I've no will to fight

Time won't wait for me to bend and break  
Don't want to be so numb to everything  
(In this coma!)

I'm free falling and the black hole opens  
Vicious circle leading me to lie  
I keep swimming through an empty ocean  
In slow motion, in slow motion  
I'm free falling and the black hole opens  
Vicious circle leading me to lie  
I keep swimming through an empty ocean  
In slow motion, in slow motion

Time won't wait for me to bend and break  
Don't want to be so numb to everything  
(In this coma!)

I'm free falling and the black hole opens  
Vicious circle leading me to lie  
I keep swimming through an empty ocean  
In slow motion, in slow motion  
I'm free falling and the black hole opens  
Vicious circle leading me to lie  
I keep swimming through an empty ocean  
In slow motion, in slow motion  
I'm free falling and the black hole opens

In this coma!  
(I'm free falling and the black hole opens)  
In this coma!
