

Not Invincible

Bullet For My Valentine

They crawl under your skin!
And eat away your soul
So let the feast begin!
And then bury the bones!

It seems they want to be the-
Judge, jury, and executioner!
So let the feast begin
When will I leave you alone?

They cut you down!
And then they bury the bones!
They force you out!
They'll never leave you alone!

They're not, not invincible!
You need to fight them to the death!
They're not, not invincible!
You need to lay those fucks to rest!

They wanna shut your mouth!
And cut away your tongue!
Try and choke you out!
And steal the air from your lungs!

It seems they want to be the-
Judge, jury, and executioner!
So let the games begin!
They'll never leave you alone!

They cut you down!
And then they bury the bones!
They force you out!
They'll never leave you alone!

They're not, not invincible!
You need to fight them to the death!
They're not, not invincible!
You need to lay those fucks to rest!

They cut you down!
They'll never leave you alone!
They force you out!
And then they bury the bones!

They're not, not invincible!
You need to fight them to the death!
They're not, not invincible!
So go and lay those fucks to rest!

When will I leave you alone?
