

# Pretty on the Outside

Bullet For My Valentine

Whoa, whoa, whoa

So you wanna play games with my head?  
Fuck you, make me fall apart, I wish that I was dead  
I just can't believe I fell, for such a blackened heart  
You played me for a fool and used me from the start

Fuck you (fuck you), I just want to know the truth,  
but the words from your heart they just cloud,  
All the negativity, forces me down into (silence)  
But still I can pray,  
I wanna know, I wanna know

If I tear you open wide, take a look inside  
Are you pretty?  
Can I get inside your mind, see what I can find?  
Are you pretty?  
So just take off that disguise, everyone knows that you're only  
Pretty on the outside

Now I fucking hate you, with all of my heart  
Just disappear, and never will I fear for my life  
I just want to be alone,  
And never, no never, will I be unhappy alone,  
I wanna know, I wanna know

If I tear you open wide, take a look inside  
Are you pretty?  
Can I get inside your mind, see what I can find?  
Are you pretty?  
So just take off that disguise, everyone knows that you're only  
Pretty on the outside

You're so pretty on the outside  
You're so pretty on the outside

So you wanna play games with my head  
But you make me fall apart, and wish that I was dead  
Can't believe I fell for such a blackened heart  
You played me for a fool and just used me from the start

I just wanna know the truth (but the words from your mouth)  
All your negativity (you keep forcing me down)  
Into silence I can dream (into silence I can dream) Into silence I can dream

If I tear you open wide, take a look inside  
Are you pretty? (pretty!)  
Can I get inside your mind, see what I can find?  
Are you pretty? (pretty!)  
So just take off that disguise, everyone knows that you're only  
Pretty on the outside

Whoa, you're so pretty on the outside  
Whoa (you're so pretty on the outside)  
You're so pretty on the outside!
