

## Speeding in the Night

Bullet

There's a feeling inside, the tension draws near  
When time to ignite comes around  
There's a power to grind  
No anguish or fear  
When screaming hot steel starts to pound

The road sets me free  
That's all I wanted to be

Feel the pressure, the strain, desire to reign  
Awaiting permission to run  
Hear the roar of the engines, they call out for vengeance  
A flash of green light and I'm gone

The road sets me free  
That's all I wanted to be  
Speeding in the night  
Makes me feel alive

The road sets me free  
That's all I wanted to be  
Speeding in the night  
Makes me feel alive
