

Move On

BulletProof Messenger

On and on, addictive by you
Break it down and leave this fall
All the words defy to hide you
want it fast, afraid, too sure

Come on say Go
You were so alone, I cannot wait to find you
And I say No
You were so alone, in time I know I will find you

Pick up yourself and move on
and leave it all to me
Pick up yourself, now I'm gone
I cannot set you free

Pick up yourself and move on
and leave it all to me
Pick up yourself, now I'm gone
I cannot set you free

When I find it's time to guide to
Break it down and leave you sore
All the words cannot define you
Recognize, I can't ignore

Come on say go
You were so alone, I cannot wait to find you
And I say no
You were so alone, in time I know I will find you

Pick up yourself and move on
and leave it all to me
Pick up yourself, now I'm gone
I cannot set you free

Come on, come on say go
Come on, come on say go

Pick up yourself and move on
and leave it all to me
Pick up yourself, now I'm gone
I cannot set you-

Pick up yourself and move on
and leave it all to me
Pick up yourself, now I'm gone
I cannot set you free
