

Get To The Heart Of It

Bullion

I want to be a part of it
I'm trying to be a part of it
To get to a part of it
Constantly thinking over it
Given to chase the flame for it
I'm ready to toe the line a bit
I wonder what you think of me
Step towards the brink of me
I could hold the key
I could hold the key

Wanting to be a part of it
Striving to be a part of it
To get to the heart of it
To send me far away from it
Holding me up at bay from it
It's hard to keep the fire lit
Hoping that you think of me
Walk towards the brink of me
I could hold the key
Hold

Wanting to be a part of it
Working to be a part of it
Let's make a start of it
Openly being here for it
Casting off to steer for it
Singing to the frontier of it
Set out your side for me
Walk towards the light for me
I could hold the key
