

Loop The Loop

Bullion

When you went loop the loop
The spiral stopped the fly
The people looking at you
All you can see is the sky
People talk down to you
All you know is sky

When you shot through the roof
About a country mile
Your brother's chipped in to you
They couldn't change the dial
Now people think about you
All they know is style
They don't have the first clue
Cause all they know is style

Loop the loop sky
The more you know
Loop the loop is sky
Loop the loop
All you see is sky
Loop the loop sky
Loop the loop
All you see is sky
Loop the loop
Loop the loop
All you know is sky
All you see is sky
All you know
