

## Never Is The Change

**Bullion**

Never is the change you make inside your mind  
Got to move in space and time  
You'll see the light  
And never is the change you make what people say  
People always pave the way  
Some win the day  
Rarely is the change you make from A to B  
Try a different route to see  
You hold the key

Never is the change you make outside your head  
Brain's are trapped for daily dread  
And so don't feed the cruel  
Rarely is the change you make an easy step  
Sacrifice a lot to get  
A wider net  
And never is the change you make from end to be  
It's a stepping stone you see  
But you can hold the key

Never is the change you make  
You make you make you make
