

## Palm 2

### Bullion

I love the golden one  
You can't paint that on me though  
Far from the golden son  
Black and white being like a domino  
But I crush your bones with

Crush your bones with  
I crush your bones with  
Crush your bones with silver  
Crush your bones with  
Crush your bones with  
I crush your bones with  
Crush your bones with silver

I'm not the only one  
You might see us on the go  
Silver looks great to some  
Black and white being like a domino

But I crush your bones with  
Crush your bones with  
Crush your bones with silver
